Lead Presenter:

PROF ATUL BUDUKH
is co-investigator and key person for the IARC Cancer Registration Hub at Mumbai and is actively involved in teaching epidemiology and cancer registration.

He has played a pivotal role in establishing population-based cancer registries in Chandigarh, Mohali, Sangrur, Mansa, Varanasi, and Gadchiroli and in training cancer registry operations across several South Asian countries.

Webinar Moderator:

LES MERY
is responsible for the GICR – a multi partner action plan aimed at improving the quality and coverage of cancer registration globally.

He oversees the implementation of the GICR and provides technical support in cancer registration to the Caribbean, Pacific Islands and Southern, Eastern and South-Eastern Asia.
