Lead Presenter:
ANNE KORIR

is a Senior Research Scientist at the Kenya Medical Research Institute (KEMRI), specializing in non-communicable diseases with a focus on cancer. A pioneer in establishing population-based cancer registries across Kenya, she currently leads the Nairobi Population-based Cancer Registry and serves as Principal Investigator of the IARC-GICR Centre of Expertise for Sub-Saharan Africa.

Webinar Moderator:
BIYING LIU

is the Administrator African Cancer Registry Network (AFCRN) since 2012. Her role is to coordinate activities within the Network, including training, advocacy, research and consultancy, oversee finance, project development, funding application and publications that involve data from countries in the region.
