

# GICR e-Learning Series Interactive Webinars-2026

This series of webinars are:

- Dedicated to reinforce key concepts of cancer registration
- Space for discussion with webinars offered throughout 2026
- Intended to help users to complete the GICR e-Learning Series

This series of webinars are NOT:

- A lecture or a training webinar

Participants are expected to have attended at least one of the Modules of each webinar.

Webinar dates will be released by Hub.

Here below are the first three webinars of the series.

## February

### CANCER REGISTRATION: AN OVERVIEW

- Introduction to cancer surveillance
- Cancer registries
- Measuring cancer incidence, mortality and prevalence
- Use of registry data for cancer control

## March

---

### INFORMATION COLLECTED AND METHODS

- Variables for cancer registries
- Case finding and sources

## April

### CLASSIFICATION AND CODING

- Classification and coding
